

**As Simple As 1,2,3** - From the album "Rocky Mountain Tunes for Rocky Mountain Kids"

[V1]

[C] [G] [F] [C]

The trees make the cones and the cones make the seeds

[G] [C] [F] [G] [C]

The seeds make the sprouts and the sprouts make the trees

[C] [G] [C] [G] [C]

(A dibity bum dee boom dee bum bum)

The trees make the leaves and they float in the breeze

The leaves make the soil and the soil makes the trees

The cycles are as simple as 1,2,3

Now clap 3 times (1,2,3!)

(A dibity bum dee boom dee bum bum)

[Bridge]

[D] [G]

Everyone loves a cycle cause it's circular

[Bm] [G] [A] [G] [A]

It's rounder than a thing that isn't round

[G] [D/F#] [Em]

When everything's connected to another wonderful thing

[F] [G] [G7]

Then the cycles will "undoubetebly" abound

[V2]

The bees take the pollen which can make you sneeze

The pollen makes the flowers and the flowers feed the bees

(A dibity bum dee boom dee bum bum)

The seas make the rains and the rains can freeze

The rains make the streams and the streams make the seas

The cycles are as simple as 1,2,3

Now clap 3 times (1,2,3!)

(A dibity bum dee boom dee bum bum)

[Repeat Bridge]

[V3]

Oh, look at all the people, all the "he"s and "she"s

Connected to the cycles everyone agrees (that)

We need the trees and the leaves and the seeds

We need the bees and the streams and the seas

Cause everything's connected like A to Z

Everything and that includes you and me

The cycles are as simple as 1,2,3

Now clap 3 times (1,2,3!)

The cycles are the circles of Ecology

(A dibity bum dee boom dee bum bum)
