[Bb] [F] [Ab] [Eb]
[Spoken] (Other species in an ecosystem largely depend on a keystone species. If the keystone creature disappeared the ecosystem would change drastically.)

I'm a Beaver did you know that aside from human beings
[B] [Ddim] [Bb]
We change the world more than any creature and even some machines

[F#] [Ab] [Db] [Ebm]
For many species it's a blessing and for others it's so cruel
[B] [Ddim] [Bb]
The way we dam a raging river to create a placid pool

[F#] [Ab] [Db] [Ebm]

What is this deep intrinsic instinct to rebuke the status quo
