She's not only a predator

[A]

She's got enemies

[F] [G] [A]

Wasps, lizards, mantids, humans too

[F] [G]

A most important member

[C] [C/B] [Am]

Of any food web

[Guitar Solo]

[G] [C] [D] [E]

[V3]

[G] [C] [D] [E]

Just because you're scared of spiders

Doesn't mean we're bad

[G] [C] [D] [E]

Farmers say we're helpful

Spiderlings say "Mom and Dad"

[G] [C] [D] [E]

They're making eco-friendly pesticides

From my venomous goo

[G] [C] [D] [E]

With her super flexy silk

I'm teaching chemists a thing or two oooo

[G] [C] [D] [E] (repeats)

C'mon c'mon (x4)

OK, now how many of y'all out there think  
that spiders are insects? Well, it's time we set  
the record straight.

I'm not an insect

Dispell the rumor

I eat insects

Secondary consumer

Respected & honored by the Pueblo people  
Keeping insect populations stable  
Order in every night for dinner

Liquefy your prey  
I'm a super spinner

Human fatality, from the likes-a me  
Such a rarity  
Cause she's so cowardly

As scared a' you as you are of my  
So I live I life of caution  
May we suggest relocation  
As an alternative to squashing  
**[G]** **[C]**  
Parentally supervised relocation  
**[D]** **[E]** **[F#]**  
As an alternative to squashing

[Chorus]
