

# Jeff & Paige!

*Bringing science and nature to life through original, kid-delighting songs and stories.*

Boulder, Colorado's Jeff and Paige deliver exciting fun-filled concerts and CDs brimming with love of the outdoors and ecology, bringing concepts like insect anatomy, energy conservation and plate tectonics to the whole family. Never preachy, always funny and hook-filled music loved by kids and parents alike.

*They have won several awards for their music and musical programming*

**2016** National Parent Products Award (NAPPA) Award

**2013 & 2016** Parent's Choice Award

**2014** Creative Child Magazine CD of the Year Award

**2014** Colorado Alliance for Environmental Education Award (CAEE) for excellence in programming

Through their live shows and five different albums, Jeff and Paige have reached thousands of children and adults with their joyful spirit of play and passion for ecological awareness. Both have Master's Degrees in Environmental Education. On social media, their videos have been watched over 70,000 times.

*What's a concert like?* 🦋

Jeff and Paige use songs, storytelling, and interactive play to engage kids with nature, music, and movement and costumes and props to create characters and set the scene. Their concerts are engaging and educational, taking them from festivals to city parks, from schools to libraries, from private events to museums, from arts centers to open spaces.

# Testimonials

“Interactive, kid-friendly nature songs that have made them a beloved part of the Boulder community and its many young families for years. The pair’s topical, educational music is neither lofty nor preachy, and (attention, Frozen’d-out parents!) it’s listenable for you, too.”

– 5280 Denver’s Mile High Magazine

“As an educator, I think the most wonderful thing about the music, other than of course being fun and educating, is that it speaks to such a large range of ages. Jeff and Paige have such a sweet dynamic between them and a sense of humor that makes everyone who sees them fall in love, and join the journey at hand. They seem to truly love what they are doing and committed to their ideals. It brings so much joy and inspiration to our daughter. She sings, dances, acts songs out, makes sure we are taking care of our planet and asks so many wonderful questions. What a great way to help make this world better.”

– Karen, Mom & Fan

“Not only is each tune catchy, encouraging little guys to get up and move, but also accurately describes ecological ideas with the proper vocabulary...Jeff and Paige are scientists and educators whose careers have evolved into the joyous work of sharing science and messages of ecology through song. I would highly recommend ‘Mighty Wolf’ to any early childhood or elementary classroom and definitely for learning and entertainment at home - Share it!”

– Science News

“If you’re lucky like me, you have a kid or two that is genuinely excited about being outside, the natural world, animals...the whole bit. We still have days where we have a power struggle about screen time vs. get out there and play time. In the creativity department, I’m lame...so I’m thankful for folks like Jeff and Paige who do all that for me! Want to get your kids pumped up to get out? Grab a copy of Get Outdoors or their newest release, Mighty Wolf! No other artists have so much valuable information packed into a CD!”

– Field Guide to Parenting Outside

# *But wait, there's more!*

Jeff & Paige have worked with Horizon Organic Dairy to create short advertising and educational jingles released to the public.

They write and license scripts for educational assemblies (such as crosswalk safety).

They have appeared in several public service announcements.

They write environmental educational curriculum and have worked with many partnering organizations to deliver meaningful, playful, and fun education to a wide variety of audiences.
